4K HDCVI Security System
Eight (8) 5 MP and Four (4) 4K HDCVI Eyeball Cameras with One (1) 16-channel 4K HDCVI DVR

System Overview
The Dahua HDCVI Security System provides all the components to quickly install, configure, and employ a complete video surveillance solution. The HDCVI cameras offer the clarity of 4K video, and the HDCVI DVR offers built-in motion detection algorithms, alarm triggers, and customized recording modes. The cameras and the HDCVI DVR supports multiple video outputs making the kit compatible with many existing systems. The kit features Dahua’s HDCVI technology that leverages an existing coaxial infrastructure, saving time and costs from running networking and power cables.

Functions

Long Distance Transmission
HDCVI technology guarantees real-time transmission over long distances without loss of video quality. HDCVI cameras provide the same resolution as most IP network camera systems using existing RG-59, RG-6, or CAT 6 UTP cabling.

Simplicity
HDCVI technology seamlessly integrates traditional analog surveillance systems with upgraded, high-quality HD video, making it the best choice to protect security investments. The plug and play approach enables full HD video surveillance without the hassles of configuring a network.

Smart IR
With IR illumination, detailed images can be captured in low light or total darkness. The camera’s Smart IR technology adjusts the intensity of camera’s infrared LEDs to compensate the distance of an object. Smart IR technology prevents IR LEDs from whitening out images as they come closer to the camera. The camera’s integrated infrared illumination provides high performance in extreme low-light environments.

5 MP HDCVI Cameras
- 5 MP¹ at 20 fps Maximum Resolution
- 2.8 mm Fixed Lens
- Maximum IR Length: 30 m (98 ft) with Smart IR
- IP67 Ingress Protection

4K HDCVI Cameras
- 8 MP at 15 fps Maximum Resolution
- 2.8 mm Fixed Lens
- Maximum IR Length: 50 m (164 ft) with Smart IR
- IP67 Ingress Protection

4K HDCVI DVR
- 16 Channel Penta-brid Recorder, Support for 8 + 8 IP Channels
- Smart H.265+ and Smart H.264+ Dual Codec
- 4K at 7 fps Recording Resolution on all HDCVI Channels
- Automatically Detects HDCVI, AHD, TVI, and CVBS Inputs

Intelligent Video System (IVS)
The HDCVI DVR offers IVS, a built-in video analytic algorithm that delivers standard intelligent functions to monitor a scene for Tripwire violations, intrusion detection, and abandoned or missing objects. IVS quickly and accurately responds to monitoring events in a specific area. In addition, the HDCVI DVR feature face detection technology that identifies human faces in digital images.

Smart H.265+
The HDCVI DVR uses Smart H.265+ video compression to reduce bit rate and storage requirements by up to 70% when compared to standard H.265 video compression. Smart H.265+ is the optimized implementation of the H.265 codec that uses a scene-adaptive encoding strategy, dynamic GOP, dynamic ROI, flexible multi-frame reference structure and intelligent noise reduction to deliver high-quality video without straining the network.

Multi-format Support
The camera and HDCVI DVR supports multiple video formats including, HDCVI, CVBS, AHD, and TVI. The camera can switch between these four formats via the OSD menu or the switch located on the video output cable making the camera compatible with not only HDCVI DVRs but also most existing HD/SD DVRs. The HDCVI DVR automatically recognizes the incoming signals of each attached camera without any setup, making installation easy and operation convenient.

Environmental
With a built-in heater and a temperature range of –40° C to +60° C (–40° F to +140° F), the cameras are designed for extreme temperature environments. The cameras, subjected to rigorous dust and water immersion tests, are certified to the IP67 rating making them suitable for demanding outdoor applications.

The HDCVI DVR features an operating temperature of –10° C to +55° C (+14° F to +131° F).

2. The DORI distance is a measure of the general proximity for a specific classification to help pinpoint the right camera for your needs. The DORI distance is calculated based on sensor specifications and lab test results according to EN 62676-4, the standard that defines the criteria for the Detect, Observe, Recognize and Identify classifications.

3. Transmission distance results verified by real-scene testing in Dahua’s test laboratory. Actual transmission distances may vary due to external influences, cable quality, and wiring structures.

### Intelligence

The IVS features are operational only when the additional IP channel feature is not active. The HDCVI DVR supports only IVS or the additional IP channel inputs, both features cannot be in use simultaneously. IVS triggers an alarm and takes a defined action for the following events:

#### Premium Features

- **Tripwire**: A target crosses a user-defined line.
- **Intrusion**: A target enters or exits a defined perimeter.
- **Abandoned/Missing Object**: A target leaves an object in designated area, or a target removes an object from the same designated area.

#### Advanced Features

- **Facial Detection**: Detects and captures a snapshot of human face in a defined area within a scene.

### IVS Feature Availability

The HDCVI DVR supports the following IVS availability:

- Tripwire and Intrusion available on all 16 channels.
- Abandoned and Missing Object available on channel 1 through 4.
- Facial Detection available on one channel.
