The RAYMAX series of High Performance Infra-Red LED illuminators provide class leading performance, long life and zero maintenance. They incorporate the very latest surface mount LED’s to deliver excellent night-time pictures with improved optical output and outstanding reliability.

The unique Adaptive Illumination™ concept provides the flexibility to alter the angle of illumination on site to suit specific security needs and to match the camera’s field of view. RAYMAX illuminators are also purpose designed to provide even output illumination.

Each unit is fitted with Active LED Life Control to carefully control LED output, delivering consistent illumination power and a projected working life of 10 years.

RAYMAX illuminators are supplied with bracket and power supply. Control features on the power supply include adjustable power output, photocell and telemetry control. RAYMAX 50 is suitable for all low light installations up to 40 metres (131ft).

RAYMAX 50 is also available with low voltage PSU.

**POWERFUL**
- Distances up to 40m (131ft)
- Latest LED technology
- High power - low running costs

**FLEXIBLE**
- Adaptive Illumination™
- Various angles (30° to 180°)
- Fully Controllable Power Supply
- Optional Low Voltage PSU

**RELIABLE**
- 10 year life
- Active LED Life Control
- Vandal resistant

**CONTROLLED**
- Zero Light Pollution
- Even Output Illumination
- Semi-Covert (850nm) or Covert (940nm) Options

**APPLICATIONS**
- Banking
- Hotels
- Car Park
- High End Residential
- Dumping
TECHNICAL SPECIFICATIONS

ILLUMINATOR
Max Distance: up to 40m (131ft)
Angle: Various - See Part Codes
Optics: SMT LED’s
Consumption: 20W max
Voltage: 13.5V current controlled
Weight: 1.7kg (3.7lbs)
Environmental: IP66
Temp Range: -50 to +50°C (-58 to 122°F)
Cable Length: 2.5m
Colour: Black
Wavelength: 850 or 940nm
Dimensions: 160 x 115 x 54mm 6” x 4” x 2” approx

POWER SUPPLY
Input: Universal 100-240V AC auto-sensing
Low Voltage 12-24V option also available
Output: 20W max
Temperature: -50 to +50°C (-58 to 122°F)
Weight: 0.9kg (2lbs)
Dimensions: 160mm x 120mm x 80mm 6” x 5” x 3” approx
Standard PSU (included)
Adjustable photocell
Adjustable power output for IR Telemetry Control
Premium PSU (add ~PR to part code)
All standard PSU features PLUS
Photocell following contact for switching of dual mode cameras
12V dc output to power cameras
Pulsed PSU (add ~PU to part code)
To pulse Raytec lights in sync with cameras.
Power Adjustment
Video In and Video Out connections to sync light and camera,
12V dc output to power cameras

5 YEAR WARRANTY
All Raytec CCTV illuminators are provided with a 5 year warranty, unmatched anywhere in the CCTV lighting industry. Raytec illuminators provide guaranteed long life!

ACTIVE LED LIFE CONTROL
All Raytec illuminators employ cutting edge materials science techniques to improve thermal efficiency throughout the unit and ensure continuity of LED power. The New Advanced Cool Running™ system draws heat away from the LEDs, shielding the LED from abnormal stress, and allows Raytec LED products to deliver outstanding performance and consistency of illumination throughout the operational life of the illuminator.

SMT (Surface Mount Technology)
The future of lighting is surface mount LED technology. Compared to standard through hole LED’s, surface mount LED’s are a more robust solution increasing reliability and improving product life. They are also far more efficient at the dissipation of heat allowing the LED’s to run at higher power and achieve significantly improved performance.

VANDAL RESISTANT
The polycarbonate lens design protects against severe blows from crowbars, baseball bats and can even withstand successive shots from air pistols and rifles (range dependant).

ENERGY SAVING
All Raytec illuminators use high efficiency LED’s and advanced control methods to deliver extremely low electrical consumption. Raytec illuminators are energy saving and deliver huge savings in running costs compared to traditional bulb illuminators.

VISUALIZATION
High Definition Lighting allows cameras to provide crystal clear, high signal images during the hours of darkness. The breakthrough in HD lighting is made possible with Raytec’s high power LED technology delivering increased power on scene.

ADAPTIVE ILLUMINATION™
Adaptive Illumination™ allows the installer to adjust the angle of the light projection from a single unit to fit the specific demands of any installation. Adjustment is quick and convenient and any angle up to 180 degrees (depending on model) is easily selectable. Adaptive Illumination is patent pending technology available exclusively from Raytec.
