ENERGY STAR Certified
Lower energy costs and environmental impact

The protection you need - made for any space

Minuteman's Entrust LCD Series UPSs are the next evolution of the popular Entrust line, and offer a host of new features in the same ultra-compact form factor.

Leading the updates is the prominent new LCD Status Display, which keeps users informed of both power and UPS status in real-time. Display features include input and output power frequency and voltage, visual load and

battery level status, and estimated runtime remaining.

Entrust LCD also makes life easier with its all-new Tool-less Battery Panel. Screwdrivers, lost hardware, and setup delays are now a thing of the past, saving time and expense throughout the life of the UPS.

Trouble-free Setup & Maintenance

- Tool-less Battery Panel:**
- No more tools or lost screws
 - Front panel simply slides off to provide access
 - Easy-grip connector eliminates bad connections
 - Save time during setup and throughout UPS life

More outlets for your devices

- Entrust LCD 1000 & 1500VA models:**
- Additional 2 outlets (10 total) versus previous models
 - Allows more devices to be protected from all power problems

Ideal backup for:

Small phone systems, PCs, and workstations

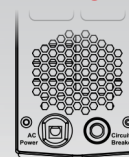

Midsize DVR, Alarms, Access Control, Intrusion

Switches, Hubs, Access Points, Routers

Your 'Tight Space' UPS

Entrust LCD goes where other UPSs don't

- 3.4" total width for tight closets and desks
- Compact overall size ideal when space is at a premium
