The VARIO i2 series represents class leading Infra-Red illumination designed for all CCTV installations. VARIO illuminators combine the latest advances in optics, remote control, electronic feedback and green technology into an outstanding all-round package.

The unique VARIO beam pattern system is the latest development in interchangeable holographic optics and allows users to precisely match the angle of illumination to the required field of view. VARIO lenses use hot-spot reduction technology (HRT) to produce images far better than those possible with normal LED illuminators. The HRT system delivers a highly diffused elliptical beam shape to deliver light directly to where it is most needed, allowing greater illumination distances, reducing light and energy wastage and preventing the overexposure of foreground objects.

An optional VARIO remote control provides the ability to set-up the illuminator quickly, safely and from ground level. Active LED life control ensures high reliability and consistent optical output and all VARIO illuminators are part of the Raytec Green Touch programme, delivering outstanding performance with minimal environmental impact. The VARIO LED status indicator provides instant operational feedback on status and performance of the illuminator.

A standard VARIO kit includes interchangeable lenses to deliver angles of 10, 35 and 60 degrees out of the box; enough flexibility to cover most applications. Other angles are available on request. VARIO illuminators are supplied complete with bracket and operate directly from a 12-24V input.

MULTI-ANGLE INFRA-RED

POWERFUL
• Distances up to 65 m
• SMT LED technology
• HRT Hot-spot Reduction Technology

FLEXIBLE
• VARIO holographic lens system
• Angles from 10-120 degrees
• Interchangeable
• Optional VARIO remote control interface

RELIABLE
• LED status indicator
• Active LED Life Control
• Vandal Resistant

CONTROLLED
• Command and Control Technology™
• Elliptical beams angles for optimal light distribution
• Semi-Covert (850nm) or Covert (940nm) Options

INTERCHANGEABLE LENS SYSTEMS

At the heart of VARIO is a holographic lens system that allows the user to change the angle of light by changing the VARIO lens. A wide range of lenses are available to ensure that VARIO illuminators meet the demands of any installation. A standard VARIO illuminator delivers 10° circular, 35x10° and 60x25° elliptical angles out of the box. Other VARIO lenses are available on request.

APPLICATIONS

MILITARY BASE  AIRPORT  INDUSTRIAL PARK  DOME SYSTEM  POWER PLANTS
VARIO INTERCHANGEABLE LENSING
Angle of illumination can be easily, quickly and precisely adjusted by changing the Vario holographic lens insert. Never again be caught with the wrong angle illuminator. Elliptical and Circular beam patterns available.

LED STATUS INDICATOR
Quick operational feedback on status and performance of the illuminator. Allows simple and quick commissioning of the installation and easy maintenance reviews.

HRT - HOT-SPOT REDUCTION TECHNOLOGY
HRT - hot-spot reduction technology delivers a highly diffused, elliptical beam shape to deliver more light where it is needed, generating both longer distances and minimizing light wastage. The HRT system also prevents overexposure of foreground objects.

VARIO REMOTE CONTROL
1 man installation, reduces both cost and time of installation. Allows set up quickly and safely from ground level and provides access to advanced set up features.

GREEN TOUCH TECHNOLOGY
In-built green features such as power adjust, telemetry control and timer function enhance the potential for energy savings. Fully recyclable packaging minimises physical waste and less light is wasted with the use of elliptical beam patterns. All VARIO units deliver high performance with low running costs.

PLATINUM ADVANCED LED TECHNOLOGY
PLATINUM illuminators use cutting edge SMT LED technology together with Light Intensification Miniature Optics (LIMO™) and an enhanced Cool Running™ thermal management system into a single high performance LED. The result is World leading power, reliability and flexibility.

5 YEAR WARRANTY
All Raytec CCTV illuminators are provided with a 5 year warranty, unmatched anywhere in the CCTV lighting industry. Raytec illuminators provide guaranteed long life!

TECHNICAL SPECIFICATIONS

ILLUMINATOR
Max Distance: 65 m (213ft)
Angle: Standard pack includes 10 circular + 35 x 10 (fitted as standard) and 60 x 25 elliptical lenses
Additional optional lenses: 80 x 30
120 x 50
Optics: SMT LED’s
Consumption: 12W max
Input: 12/24V AC/DC
Weight: 600g (1.3lbs)
Environmental: IP66
Temp Range: -50 to +50˚C (-58 to 122˚F)
Cable Length: 2.5m
Colour: Black
Wavelength: 850 or 940nm
Dimensions: 75 x 100 x 64mm
3” x 4” x 2.5” approx

INTEGRATED COMMAND AND CONTROL TECHNOLOGY
Integrated Standard Features
- In-built photocell for automatic on/off operation
- LED status indicator provides status on performance of the unit
- Photocell following output

Integrated Advanced Features (accessed via VARIO remote control)
- Power adjust from 20-100%
- Photocell sensitivity adjust
- Timer function (up to 30 mins)
- Telemetry control
- Remote Dimming
- LED status indicator on/off
- Restore factory default settings

PART CODES
VAR-i2-1 VARIO i2 with 3 angle options included
12-24V, 850nm
VAR-i2-1-c VARIO i2 covert with 3 angle options included
12-24V, 940nm

OPTIONAL PARTS
VAR-rc Remote Control for any VARIO illuminator (only 1 remote needed)
VAR-i2-LENS-8030 Individual i2 VARIO lens – 80H x 30V
VAR-i2-LENS-12050 Individual i2 VARIO lens – 120H x 50V

ANGLES
10x10°
35x10°(fitted as standard)
60x25°

DISTANCES
65m (213ft) at 10°
45m (148ft) at 30°
30m (98ft) at 60°
