The set-up procedure for your new Wi-Fi Camera System uses a default Username and Password provided to you from the manufacturer. After you have completed the set-up procedure for your new Wi-Fi Camera System it is essential that you immediately change both the Username and Password to a unique name and code of your choosing. Failure to change both the Username and Password will severely compromise the security and privacy for your Wi-Fi Camera System.

**WARNING** THE DEFAULT USERNAME AND PASSWORD IS FOR MANUFACTURING TESTING AND FIRST-TIME SET UP ONLY! IT IS NOT UNIQUE TO YOUR DEVICE OR INTENDED FOR USE AS A PRIVATE SECURE PASSWORD. FAILURE TO CHANGE FROM THE DEFAULT FACTORY SUPPLIED USERNAME AND PASSWORD EXPOSES YOU TO UNAUTHORIZED ACCESS AND VIEWING OF YOUR WI-FI DEVICE!

The internet is a public place and if you do not change the Username and Password, but continue to use the default Username and Password, you are risking your privacy! There is great potential risk that unauthorized individuals could access your video. It is your responsibility and the User in Control to maintain the privacy and security of your content when using this or any Wi-Fi devices.
Do not open/modify the device, as it may cause damage to the unit and void the Warranty. For internal repairs, consult your dealer or an Authorized Service Center.

Do not use any accessories or power supplies other than what comes with the device, otherwise it could void the warranty.

Protect from humidity. Do not put it in water and be careful to protect it from rain, sea water, or high humidity environment. Do not operate the unit near a bath tub, shower, sink, swimming pool, etc.

Protect from high temperatures. To avoid mis-operation of the device, only use in temperature of 0 ~ +40°C(32 ~ 104°F).

Do not bring the device suddenly from a hot to a cold place, or vice versa. This may cause damage to the inside of the unit by creating condensation.

EU Environmental Protection
The symbol of crossed-out garbage shows that this product should not be treated as household waste, as it falls into the category of electric/electronic equipment for recycling. This electronic device should not be disposed of in regular trash. We strongly advise you to contact your local authority for proper disposal of this product.
Includes

- Indoor Weather Station Unit
- Outdoor Sensor Unit
- AC Power Adaptor
- Li-ion Rechargeable Battery
- USB cable
- 3 Installation Screws
- User Manual
Introduction

With the Zone Shield EZ Wi-Fi hidden camera you will be protecting your most valuable assets in minutes. There are a couple of things you should do before you get started. First, read the whole manual first, as this makes setting up your device quick and easy. Next, understand what you need to connect your device. Follow the steps in order to avoid any issue. If you do have any questions, feel free to look at our FAQs or call us, as we are always happy to help.

Understanding how to connect the Zone Shield EZ Wi-Fi hidden camera: First download our App “Zone Shield EZ” from the App Store or Google Play Store. Next, your smart device has to connect to the camera’s Wi-Fi network, called Wi-Fi Direct(P-P), which is a Wi-Fi standard enabling devices to easily connect with each other without requiring a wireless access point/router. With this connection, you can go anywhere within range of the Weather Station with your smartphone or tablet and view the video in the app. To view from anywhere away from your home/office, you have to connect the camera to a wireless access point/router(P-I). Once setup, you can view your video from the app wherever you are, at any time.

As with all wireless devices, it takes a little patience and a good, strong Wi-Fi signal to run video over a network. Keep in mind, we do not know your Wi-Fi environment and cannot test every router or smart device made, so it’s up to you, the user, to meet the minimum requirements needed to run this device.

Quick Setup Guide

1. Remove the battery cover and install the rechargeable battery. Replace the battery cover. Insert the memory card (see pg. 6) and plug the cord into an electrical outlet.
2. Download and install the “Zone Shield EZ” App from the App Store or Google Play to your smartphone or tablet.
3. On your smartphone or tablet, go to your list of available Wi-Fi networks and connect to the “YM****-********-*******” Wi-Fi network.
4. Open the “Zone Shield EZ” App. Press the + symbol in the top right corner, then press the “Search (LAN)” button in the middle of the next screen. Tap on the camera name in the search results list to select it, which will return you to the previous screen. Press “OK” to add the camera to the app. You are now directly connected (P-P) and the camera will show “Online”. As long as your smart phone or tablet is in range of your Wi-Fi signal, you will see streaming live video. For remote viewing over the internet, follow step 5 below.
5. Press the 📲 symbol to the right of the camera in the camera list. Press “Advance Config” and then “Wi-Fi Config” in the menus. Select your local Wi-Fi network from the dropdown box and type in your password. Press “OK” to save the credentials, then press “OK” again to confirm and send them to the camera. The camera will reboot and take 1-2 minutes to come back online. Once the camera reboots, it is now ready for live viewing. Be sure to change the default password to a unique password.
Features

- High-definition camera
- 1080p or 720p HD resolution recording
- Supports up to 32GB memory card storage, for up to 8 hours of video recording
- 2 recording modes - Continuous or Motion detection
- Time and Date video stamp
- 25 fps

Setup

Indoor / Outdoor Device Setup

1. Remove the protective seal from the rechargeable battery, insert it into the indoor unit and connect to the power supply. The LCD screen will light up and turn on.

2. Insert 2 AAA batteries into the outdoor unit. It will power on automatically and send out current outdoor weather measurements in 1 minute intervals to the indoor unit. The indoor unit will display these measurements on the LCD screen
   - The outdoor unit is NOT waterproof.
   - Power on the indoor unit about 3 minutes before the outdoor unit for a successful connection to be made between the two.

3. Indoor Unit (top):
   1. TIME – Press and hold to set Time/Date
   2. ALM – Press and hold to set a time alarm
   3. UP – Up key; press to change between 12hr and 24hr format
   4. DN – Down key; press to change from ℃ and ℉
   5. MAX/MIN – Press to show the max and min temperature and humidity for the day
   6. ALERT – Press and hold to set outdoor max/min temperature alarm
   7. ON/OFF – Turns the LCD backlight on and off

4. Indoor Unit (side):
   8. Memory Card Slot – Insert memory card here
   9. Reset Button – Press and hold to reset Wi-Fi camera to factory defaults
   10. ON/OFF – Turns Wi-Fi camera on/off
   11. USB Port – Used for USB power cable
Zone Shield EZ App Installation

- Search for the “Zone Shield EZ” App in the App Store (iOS) or Google Play Store (Android) and install it on your smart phone or tablet.

Adding Your Camera

To connect your camera to your smart device for direct connect (P-P) viewing:

1. Remove the battery cover on the back of the camera and install the rechargeable battery. Replace the battery cover. Insert the memory card (see pg. 6) and plug the power cord into an electrical outlet and into the USB port on the side of the indoor unit.
2. Download and install the “Zone Shield EZ” App from the App Store or Google Play to your smartphone or tablet.
3. On your smartphone or tablet, go to your list of available Wi-Fi networks and connect to the “YM****_**********_******” Wi-Fi network. It may take 1-2 minutes for the network to appear in your network list.

```
4. Open the Zone Shield EZ App. Press the + symbol in the top right corner.

5. Press “Search (LAN)” button.

6. Tap on the camera name in the search results list to select it, which will return you to the previous screen.
7. Press “OK” to add the camera to your main camera list. The camera will show “Online”, and you are in P-P (direct connect) mode.

Note: After successful connection, IT IS HIGHLY RECOMMENDED FOR SECURE VIEWING YOU CHANGE YOUR CAMERA NAME AND PASSWORD ON THE APP (see pg.20 for detailed instructions). If you see a camera status saying “Wrong Password”, make sure your UID and Password are correct.
Connecting Your Camera to Your Wi-Fi Network

To connect your camera to your home Wi-Fi network:

1. Press the symbol to the right of the camera in the camera list.

2. Press “Advance Config”.

![Camera list and advance config options](image-url)
3. Press “Wi-Fi Config”.

4. Select your wireless network from the dropdown box, then enter it’s password in the box below. Press “OK” to save the credentials.
5. Press “OK” again to confirm and send the credentials to the camera. Allow 1-2 minutes for the camera to reboot and come online.

Add Your Camera to Another Smart Device – 2 Methods

- Method 1: Adding the Camera to a Second Smart Device on Same Local Network
  1. Open the Zone Shield EZ App. Press the + symbol in the top right corner.
  2. Press “Search (LAN)” button.
  3. Press the camera name in the search results list to select it, which will return you to the previous screen.
  4. Press “OK” to add the camera to your main camera list. The camera will show “Online”, and you are automatically in P-I (Wi-Fi network) mode.
Method 2: Adding the Camera to a Second Smart Device on Different Networks

1. Open the Zone Shield EZ App. Press the + symbol in the top right corner.

2. Fill in the camera UID and Password (8888 by default) manually.

3. Press “OK” to add the camera to your main camera list. The camera will show “Online”, and you are automatically in P-I (Wi-Fi network) mode.

*Note: Please refer to pg. 9 for related screenshots.*
Live Video

To access the Live View screen, press the icon in the top right corner of the Live Video tab.

- Camera Name
- Camera Settings
- Camera UID
- Camera Status/User Number
- Snapshot: View
- Snapshot Pictures
- Record: View
- Recorded Videos
- Alarm: View
- Triggered Alarms
- Brightness
- Contrast
- Resolution
- Horizontal Image Rotation
- Vertical Image Rotation
- Snapshot
- Audio
  (Law Enforcement/Export Only)
- Record
Snapshot

- To access your Snapshots, press on the Snapshot tab on the bottom.

- Press on the icon in the top right corner to filter Snapshots by camera name.

- Scroll through the slideshow on the bottom of the page to see all of your available Snapshots. Select the one you want to see and it will enlarge.
Record

- To access and Playback your recorded video files, see pg. 21.

Alarm

- To access your triggered alarms, press the Alarm tab on the bottom of the screen.

- Press on the icon in the top right corner to filter Snapshots by camera name.

- When an alarm is triggered, it will take a series of pictures to go along with it. Scroll up and down the page to see all triggered alarms. See pg. 20 for alarm setup.
Zone Shield EZ Menu and Settings

- To access all of the camera settings, press the 🔄 icon on the camera you want to access settings while in the Live Video tab.
Modify Camera

- Press “Modify Camera” to change the name of your camera. The default name is “Cam”.

Delete Camera

- Press “Delete Camera” to delete your camera and take it off of the camera list.

  Note: There is no confirmation pop-up when deleting. Once you press “Delete Device”, it is taken off of the list. However, adding the device back on, if accidentally deleted, is simple. See pg. 13 add the camera back to your smart device.

Reconnect

- Press “Reconnect” to re-establish the P-P or P-I connection. It will also function as a “refresh” button, and will update status and users.

- Press “Alarm Config” to set up motion alarms and push notifications.
- Press “Wi-Fi Config” to select a new Wi-Fi network for your camera.
- Press “SD Card Record Config” to adjust the settings for your SD card and recorded files.
- Press “Time Settings” to set time format, current time, time zone, and select Daylight Savings Time.
- Press “Email Config” to set up an email for alarms to be sent to.
- Press “FTP Config” for advanced FTP server settings.
- Press “DDNS Config” for advanced DDNS server settings.
- Press “Misc Settings” to select how you want the LEDs on your camera to flash (On, Off, or Flicker).
- Press “Change P-P Access Password” to change the P-P password (8888) for the camera.
- Press “Device Reboot” to restart the camera back to the default settings.

*Note: For the full manual with detailed setting configuration and setting menus, please visit:* [www.kjbsecurity.com/technical-support/docs](http://www.kjbsecurity.com/technical-support/docs)
**Playback**

There are two ways to playback recorded video files: from the memory card or from your smartphone or tablet.

**Smartphone/Tablet**

1. From the camera list, press the 📹 icon on the bottom of the screen to go to the Record tab.

2. Select the source for the video files in the dropdown box: Remote SD Card or Downloaded. You can also see the video files currently downloading and files on the local network.

3. Press on the video file you want to watch. You can also press and hold on a video file while on the Remote SD Card to download the file to your smart device.

4. Press on the 📚 icon in the top right corner to filter video files by camera name.
Memory Card

1. Stop any recording of video files, then unplug the camera from the power outlet.
2. Remove the memory card from the memory card slot.
3. Place the memory card into an adapter or card reader for a computer.
4. Navigate to the recorded video files in the root directory.
5. Use a media player such as Windows Media Player or VLC Media Player to playback the video files.
6. Backup, save, or delete the files as desired.
7. Use the computer’s “safe remove” function to safely eject the memory card from the operating system prior to physically removing the memory card from the computer to prevent file or card corruption.

Frequently Asked Questions

Q. Where can I find more info on settings and configuration?
A. Please download and read our full manual for more detailed settings configuration and menus. You can get the manual at: www.kjbsecurity.com/technical-support/docs

Q. I can’t find the Wi-Fi signal on my smartphone/tablet?
A. There are 3 things that can be done to restart the Wi-Fi signal:
   1. Turn the Wi-Fi camera off and then back on again using the switch on the side of the indoor unit. Wait 2 minutes for reboot.
   2. Press and hold the reset button. Wait 2 minutes for reboot.
   3. Turn off the smartphone/tablet Wi-Fi function for a minute and turn back on to search again.

Q. What size memory cards can I used in this device?
A. Most memory cards, of up to and including 32GB capacity, are supported. If a memory card does not appear to work, try removing and formatting the memory card using a computer before trying it in the device again.

Q. Why did I not get a recording when I know there was motion in front of the device?
A. The motion was not detected because it was too little, too quick or too far away. Make test recordings to discover the limits of detection in your given placement and environment.

Q. Why will my video file not play or the file is corrupted?
A. If the device does not stop any current recording prior to removing it from power, the files on the memory card, or the memory card itself, may become corrupted. Make sure to always
properly stop any current video recordings.

**Q. How many cameras can be added to the app?**  
**A.** There is no limit to the amount of cameras that can be added to the app.

**Q. Why do I only see part of my desired surveillance target?**  
**A.** Placement of any device is a very important step in setup. Be sure to make test recordings of the desired area of surveillance prior to final setup to ensure the device can perform as desired in your given environment. This should not only include what area can be captured by video, but also testing the ability to properly trigger recording in the area if using Motion Detection mode.

**Q. How many visitors/viewers are allowed to see the live view at a time?**  
**A.** Two viewers max.

**Q. Why can’t I find my recorded files on my memory card?**  
**A.** Recorded files are saved directly in the root menu of the memory card. If you cannot see any recordings and you are certain your camera should have recorded video, your memory card may be corrupt. Please format your memory card and make test recordings to ensure your card is storing the files.

**Q. How do I reset the device? I forgot my password, or unit is acting abnormal.**  
**A.** If you wish to reset the device back to factory defaults, press and hold the Reset button on the side of the unit (see pg. 6) for 5 seconds while the blue light is lit up on the front of the device (see pg. 6). Please wait 2 minutes for the Wi-Fi to boot back up. Usually, the reset button fixes any abnormalities the device is experiencing.

Notes
Manufacturer’s Limited Warranty

Manufacturer warrants all Covert Video and Sleuth Gear Hidden Video Products (Product) assembled and sold by Manufacturer to be free of defects in material and workmanship, subject to the following conditions. The duration of Manufacturer's warranty with respect to the Product is limited to one (1) year from the date of sale to the original consumer purchaser only for Products delivered within the fifty (50) states of the United States, District of Columbia, or the possessions and territories of the United States.

No other express warranties are made with respect to any Product. All implied warranties, including warranties of merchantability and fitness for a particular purpose are limited to the warranty period set forth above. This warranty is not transferable and applies only to the original consumer purchaser of the Product.

Manufacturer will, as its sole obligation under this warranty, replace or repair, at its option, any Product that does not conform to this warranty. Under no circumstances will the Manufacturer issue credit or give a refund for Product covered by this warranty. Furthermore, under no circumstances will Manufacturer be liable for any incidental or consequential damages under this warranty or any implied warranties.

What is not covered:
This limited warranty does not cover Products that in Manufacturer’s judgment have damage resulting from any (i) deviation from Manufacturer's operating instructions as printed in Manufacturer's catalog or on any packaging, labels or other literature provided with a Product, (ii) installation of a Product in a manner which is inconsistent with Manufacturer's written instructions, (iii) alteration, modification of or tampering with a Product, (iv) misuse, (v) neglect, (vi) abuse, (vii) accident, (viii) power surge, static electricity or other electrical discharge, (ix) normal wear and tear, (x) commercial use, (xi) service by anyone other than a Manufacturer authorized repair facility, or (xii) other improper application, installation or operation of the Product. Or, (xiii) have been purchased from inventory clearance or liquidation sales or other sales in which Manufacturer expressly disclaims its warranty obligation pertaining to the Product.

How you (the Customer) can get service:
To obtain warranty service during the warranty period, you must return the defective Product with the original receipt to the original place of purchase. Contact them for return instructions. If warranty service is needed at any time during the warranty period, the purchaser will be required to furnish a sales receipt/proof of purchase indicating the date of purchase, amount paid and place of purchase. Customers who fail to provide such proof of purchase will be charged for the repair of any Product.

How state law relates to the warranty:
Some states do not allow limitations on how long implied warranties last, or the exclusion or the limitation of incidental or consequential damages. So the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights that may vary from state to state.

NO PERSON IS AUTHORIZED BY MANUFACTURER TO MODIFY OR ADD TO THIS LIMITED WARRANTY.

For warranty information on Products delivered outside the United States please contact the original place of purchase.
DO NOT ATTEMPT TO RETURN PRODUCT TO ORIGINAL MANUFACTURER, AS THIS PRODUCT HAS BEEN MODIFIED AND IS NO LONGER SUBJECT TO ORIGINAL MANUFACTURER’S WARRANTY. IN THE CASE OF A DEFECTIVE PRODUCT, CONTACT PLACE OF PURCHASE FOR RETURN PROCEDURE.

IT IS THE USER’S RESPONSIBILITY TO ENSURE THAT THIS EQUIPMENT IS USED IN ACCORDANCE WITH THE LAW(S) OF THE JURISDICTION IN WHICH THIS EQUIPMENT IS UTILIZED. THIS PRODUCT MAY BE SUBJECT TO THE JURISDICTION OF THE U.S. WIRE AND COMMUNICATIONS ACT (18 UNITED STATES CODE §§ 2510-2522) (HEREINAFTER REFERRED TO AS “ACT”) REGARDING SURREPTITIOUS RECORDING DEVICES. THE USES OF SUCH PRODUCTS ARE REGULATED BY THE ACT. ADDITIONALLY, THE LAWS OF SOME STATES, COUNTIES, CITIES OR LOCALITIES MAY PROHIBIT THE POSSESSION AND/OR USE OF THIS OR SIMILAR PRODUCTS. IT IS THE RESPONSIBILITY OF THE RETAIL BUYER AND/OR FINAL CONSUMER (HEREINAFTER REFERRED AS “BUYER”) TO ASCERTAIN, UNDERSTAND, AND OBEY ANY AND ALL APPLICABLE LOCAL, STATE, AND FEDERAL LAWS REGARDING POSSESSION AND USE OF THIS PRODUCT. BY PURCHASING THIS PRODUCT THE BUYER REPRESENTS THAT IT WILL INDEMNIFY THE MANUFACTURER AND/OR DISTRIBUTOR AND HOLD THEM HARMLESS FOR ANY POSSESSION, USE AND/OR MISUSE THAT VIOLATE ANY FEDERAL, STATE OR LOCAL LAW OR REGULATION REGARDING AUDIO AND/OR VIDEO DEVICES. BUYER AGREES TO CONSULT WITH AN ATTORNEY AT LAW REGARDING POSSESSION OR APPROPRIATE USE OF A COVERT DEVICE. NOTE THAT LAWS AND REGULATIONS VARY FROM STATE TO STATE. IF BUYER EXPORTS THIS PRODUCT, THE BUYER WILL COMPLY WITH US EXPORT CONTROL LAWS AND ANY APPLICABLE DEPARTMENT OF COMMERCE, STATE AND TREASURY REGULATIONS GOVERNING EXPORTS AND SALES TO PROHIBITED END USERS. DIVERSION OR RE-EXPORT CONTRARY TO U.S. LAW IS PROHIBITED. BUYER SHALL COMPLY WITH ALL APPLICABLE FEDERAL, STATE, AND LOCAL LAWS AND REGULATIONS GOVERNING THE SALE OF THIS PRODUCT, INCLUDING U.S. EXPORT CONTROL LAWS AND THE U.S. DEPARTMENT OF COMMERCE AND TREASURY REGULATIONS GOVERNING SALES TO PROHIBITED END USERS.

PART 15 LOW POWER: ANY CHANGES OR MODIFICATIONS TO THIS EQUIPMENT WITHOUT THE EXPRESS AUTHORIZATION OF THE MANUFACTURER COULD VOID THE USER’S AUTHORITY TO OPERATE THIS EQUIPMENT (RULE 15.21 OF THE FCC).

THIS EQUIPMENT HAS BEEN TESTED AND HAS BEEN FOUND TO BE IN COMPLIANCE WITH THE LIMITS FOR A CLASS B DIGITAL DEVICE, PURSUANT TO PART 15 OF THE FCC RULES. THESE LIMITS ARE DESIGNED TO PROVIDE REASONABLE PROTECTIONS AGAINST HARMFUL INTERFERENCE IN A RESIDENTIAL INSTALLATION. THIS EQUIPMENT USES, GENERATES AND CAN RADIANTE RADIO FREQUENCY ENERGY AND IF NOT INSTALLED AND USED IN ACCORDANCE WITH INSTRUCTIONS, MAY CAUSE HARMFUL INTERFERENCE TO RADIO COMMUNICATIONS.
