PRODUCT SPECIFICATION SHEET

ACCESSORIES

710 Pulse Stretcher

The 710 Pulse Stretcher can be used with the 714 Window Bug and 330 Vibration Sensor to make them more compatible with alarm panels that require longer signal times. Can also be used to stretch out the pulse of any other sensor that has a quick pulse.

- **Accepts an unlimited number of Window Bugs (Model 714)**
- **Increases “Broken Loop” Time**
- **Automatically resets loop circuit**
- **Operates from 4.5 to 16 volts DC**
- **Can also be used with USP Model 330**
