

## FR-CPU-H01

Lock box for desktop computer

## FR-CPU-V01

Lock box for computer tower

### The most versatile protection for your computer

Computer lock box specially built for building with low access control to secure the computer network. The box can be fixed to the ground, desk or other surfaces to protect against theft and vandalism. The lock box is strong and light, because it is built with high gauge aluminum. The aluminum construction has the feature of heat dissipation, preventing computer malfunctions. This enclosure accommodate most popular computer and provides enough space for cable connections. The Front Open Face of this cabinet gives you a free access to the computer for On & Off operations and Drive Disk access. A tamperproof security plate across the front opening offers protection against computer theft.

### Fabrication :

Body: All aluminum, gauge 12, #3003-H14 alloy

Finish: White polyurethane coating

Add "BL" at the end of the part number for a black finish color

Locks: Locked by 2 tamperproof screws on each side

Weight: 9 lb ( 4.1 kg)

### External dimensions:

	FR-CPU-H01	FR-CPU-V01
Width:	20.30" (516 mm)	10.25" (260 mm)
Height:	7.50" (191 mm)	20.25" (514 mm)
Depth:	19.25" (489 mm)	20.25" (514 mm)

### Internal dimensions:

	FR-CPU-H01	FR-CPU-V01
Width:	19.00" (483 mm)	9.00" (229 mm)
Height:	6.00" (152 mm)	19.00" (483 mm)
Depth:	18.60" (472 mm)	19.60" (498 mm)
