

FR-CPU01-SB

Dustproof enclosure for computer or DVR

Industrial dustproof enclosure for computer & DVR

Designed to prevent dust infiltration, this enclosure can safely secure high value electronic components in industrial applications. Two continuous duty blowers (100 mm - 110 CFM) allow a good air circulation throughout the cabinet. Small dust particles are stopped by the large front door filter. The enclosure can be secured to the floor for maximum protection. The key & lock insure a perfect door seal. Once the rear access panel is removed, cable connections can be made easily, and the rear filter cleaned. Maintenance : clean dust filters weekly.

Fabrication

Body : All aluminum, gauge 11, #3003-H14 alloy
 Finish : White or black polyurethane coating
 Lock : 1 lock & key
 Weight : 29 lb (13.15 kg)

External dimensions :

Height : 27.00" (686 mm)
 Length : 12.00" (305 mm)
 Width : 24.00" (610 mm)

Internal dimensions :

Height : 24.25" (616 mm)
 Length : 9.50" (241 mm)
 Width : 20.50" (521 mm)
