

Mobile DVR

MobileMule™ 5 Channel 1080P Mobile DVR with GPS Tracking and Live Video Options (Hard Drive)

1080 Series

The MobileMule™ 1080 is a mobile DVR designed for on-board vehicle recording. It has four ports to record up to four FHD (Full HD) 1080p cameras simultaneously and an ethernet port to connect a forward-facing IP camera. The system comes with GPS to record the vehicle location and driving route as well. Footage records onto an included Western Digital 1TB hard drive with backup recording (128GB) onto 1 SD card (sold separately). The hard drive can also be upgraded to 2TB. With a solid and compact build, the MobileMule™ 1080 is vibration-proof, installation-friendly, and combines powerful functions together with a stable performance.

The DVR features live remote viewing via a Wifi hotspot in the vehicle or 4G network. Perfect for fleet tracking (can be used as a GPS tracker) and fleet management this DVR allows you to easily view and download footage even while the vehicle is on the road! The DVR can be connected to a monitor so that you can view the cameras in real-time in addition to recording them and allows you to view each camera independently or all together in a split view.
